FOOD CONTACT SUITABILITY

PER USDA REQUIREMENTS

SAFETY & ENVIRONMENT

FOOD CONTACT

By this letter we certify that our SYTEC[®] RF4 shrink film comply with the requirements and regulations which state that materials may be safely used in food contact and non-food applications.

The relevant specifications are described in the code of Federal Regulations of the U.S. Food and Drug Administration Title 21 para. 177.

SAFETY & ENVIRONMENT

Syfan SYTEC[®] shrink films contain no CFC's nor any residues of the heavy metals Sb, Cr, As, Pb, Ba, Cd, Ag, Se. These films do not contain phthalates or polycyclic aromatic hydrocarbons (PAK) nor are these materials used during any phase of our production. The films comply with directive 2002/95/EG (RoHS).

The gas generated during sealing of SYTEC[®] shrink films is comprised of hydrocarbon derivatives of the pure raw material and contains no harmful substances, irritants, or chlorine derivatives.

In addition, we hereby certify that Syfan shrink films contain no genetically modified materials or derivatives thereof.

ISO

The Syfan plant and headquarters have been ISO certified since June 1994. The current certification is ISO-9001/2000.
